Dear 3XN Architecture,

My name is Eleni Chaziri, and I am excited to apply for a Junior Architect position at 3XN Architecture. With over a year of professional experience at Office25Architects, I have developed a strong foundation in architectural design, project coordination, and collaborative teamwork. I am eager to bring my skills and passion for innovative design to your firm. My ambition is to grow both personally and professionally while honing my technical and creative abilities, and I am confident that 3XN Architecture provides an inspiring environment for such growth.

At Office25Architects, I contributed to projects spanning residential, commercial, and mixed-use developments. My responsibilities included producing detailed architectural drawings, working on building permit submissions, assisting in concept development, and collaborating with multidisciplinary teams to deliver innovative and functional spaces. This experience provided me with valuable insights into design execution and a deep appreciation for how architecture can shape human experiences.

3XN Architecture's commitment to designing spaces that prioritize sustainability, human connection, and cultural relevance resonates deeply with my own values. I am particularly inspired by your work on the Shenzhen Natural History Museum, which exemplifies how architecture can harmoniously blend with its natural surroundings while serving as an educational and cultural centerpiece. Contributing to projects that celebrate such creativity and meaningful impact would be a privilege.

I can provide 3XN Architecture with a new colleague who is able to:

- Offer fresh ideas and a creative perspective to solve design challenges.
- Leverage strong skills in ArchiCAD, AutoCAD, Revit, and Adobe Suite to produce high-quality work.
- Adapt quickly to new workflows and integrate seamlessly into project teams.
- Work collaboratively with colleagues, clients, and consultants to meet project goals.
- Pay careful attention to details, ensuring accuracy in all drawings and documentation.
- Stay committed to deadlines and consistently deliver work that exceeds expectations.
- Embrace new challenges and opportunities to learn while remaining open to mentorship.

I am excited about the prospect of joining your team at 3XN Architecture in Copebhagen and contributing to projects that redefine the architectural landscape. I would be delighted to discuss how my skills align with 3XN Architecture's vision and goals.

Thank you for considering my application. Please find my portfolio attached for more details on my accomplishments and experience.

Sincerely,
Eleni Chaziri
